

## **Civil Project Engineer**

Millcreek Township Sewer Authority located in Erie, PA. is currently hiring for a Civil Project Engineer. The candidate will be responsible for the development and execution of short-term and long-term capital project programs, Infiltration/Inflow study and abatement programs, oversee the grease abatement program, oversee the work of specialty contractors (CCTV, joint testing, grouting, and other abatement and rehabilitation projects).

Candidate will serve as first point of contact for regulatory agencies and be responsible for permitting and reporting.

Candidate will design, recruit and manage outside engineers as required, perform field work, apply for any available grants, and negotiate and acquire easements and restoration settlements for sewer projects.

Candidate will coordinate with township staff in the design, construction, upgrades, and maintenance of the 45 lift stations and 380 miles of sewers.

### **Job Requirements**

- Bachelors Degree in Civil Engineering with at least 5 years experience
- EIT Certificate or PA Professional Engineer preferred
- Experience with I&I Studies and Abatement
- Experience in Project Management and Design
- Excellent organization and leadership skills
- Basic knowledge of AutoCAD, ArcGIS, Microsoft Office, and Adobe Acrobat
- Strong interpersonal and communication skills (oral and written)
- Valid driver's license for travel

This is a full time position with competitive pay commensurate with experience. Excellent benefits including medical, dental, vision, life insurance, retirement plans and more.

Qualified candidates should submit their cover letter, resume and salary requirements to:
